

SHIELD PLUS™

THE RIGHT WAY TO MANAGE

- EQUIPMENT MANAGEMENT & GEOFENCING
- TASK MANAGEMENT
- CONNECTIVITY
- SUPPORT

Shield Plus™ was developed with a wide range of management features that enable you to optimize your equipment and crew. A screen-less web-based solution, Shield Plus™ can be accessed from any device and utilizes geofencing capabilities to create restricted areas and reduced speed zones. Combine that with real-time tracking of equipment, task management and work efficiency reports, and you have everything you need to maximize the effectiveness of your operation.

SINCERELY

Take

INCREASE PRODUCTIVITY

Shield Plus™ from Pace Technology allows you to receive detailed efficiency reports to maximize and manage your crew's workload, to raise revenue and lower expenses. Shield Plus™ is a screen-less web-based system that is accessible anytime, anywhere, using your computer, smartphone or tablet, allowing you to stay connected wherever the job takes you.

ACTIVITY AND TASK MANAGEMENT

- Create active zones to measure working and transport mode data
- Establish target times for task completion
- Monitor work and mower idle time
- Manage your equipment usage and hours

EQUIPMENT TRACKING AND TRAVEL HISTORY

- Remotely track mowers
- Monitor mower travel history
- Analyze travel time between activity areas

PROTECT YOUR INVESTMENT

- Real-time tracking on mowing equipment and vehicles
- Fault history and alerting
